February 2020 Issue Preview

CLOSING DATE FOR ADS: JANUARY 3 (MATERIALS DUE JANUARY 10)

It takes many qualities to create a successful leader—things like vision; clear communication; and organizational, listening, and interpersonal skills. It also takes mentoring, training, learning from the experiences of others, and, without a doubt, support and encouragement from the workplace. Our February issue will take a look at NAED's new leadership training offerings, highlight some of the electrical industry's companies that are on the cutting edge of leadership development, and share experiences from some of the industry's up-and-coming leaders.
